Why Use Direct Deposit?

Convenient: Your refund is deposited directly into your account at the financial institution of your choice.

Safe: Direct Deposit eliminates lost or stolen refund checks.

Reliable: Direct Deposit is done electronically. Your refund is deposited timely, even if you are on vacation or traveling on business.

General Instructions

If you file an MI-1040CR-7 and are not receiving an energy draft, complete this form to have your check directly deposited into your financial institution account.

First check with your financial institution to (1) make sure it will accept direct deposit, (2) obtain the correct RTN and account number, and (3) if applicable, verify that your financial institution will allow a joint refund to be deposited into an individual account.

Due to recent changes to the rules for direct deposit, if your income tax refund direct deposit is forwarded or transferred to a bank account in a foreign country, your direct deposit may be returned to Treasury. If this occurs, your refund will be converted to a check (warrant) and mailed to the address on your tax return. Contact your bank for questions regarding the status of your bank account.

You may also use Direct Deposit if you file an MI-1040, MI-1040CR or MI-1040CR-2. The request for Direct Deposit information is contained on these forms. A separate Direct Deposit of Refund, Form 3174, is not required.

You should NOT file this form if:

- You file an MI-1040CR-7 and an energy draft will be issued or a credit will be sent to your heat provider.
- You file electronically. Give your RTN and financial institution account number to your tax preparer. This information will become part of the electronic file.

- You are a personal representative filing a return on behalf of a deceased taxpayer.

- You completed the Direct Deposit information on the MI-1040, MI-1040CR or MI-1040CR-2.
